Welcome to Knoats!

This is a personal project in server-administration, documentation, and development. None of the information here is considered official documentation of any kind. Sign up is open, email verification is required, and upon logging in you will only be able to view some books and pages that are hidden to public visitors. If you have any questions or concerns, reach out to me via email - mailedknoats@gmail.com.

Feel free to sign up and look around, there isn't much here but some personal notes on various topics like NGINX, Bash, Docker, etc.
