

Installation

Execute the following command on your Raspberry Pi to install MagicMirror²:

```
bash -c "$(curl -sL  
https://raw.githubusercontent.com/MichMich/MagicMirror/master/installers/raspberry.sh)"
```

Start MM:

```
cd ~/MagicMirror/  
npm start
```

Grab the unclutter package to hide mouse on idle

```
sudo apt install unclutter
```
